▶ Tested for Chlamydial infection?
 No Yes

↓

Chlamydial infection Test Result (optional)

Positive Negative Don't Know

▶ Tested for Hepatitis C?
 No Yes

↓

Hepatitis C Test Result (optional)

Positive Negative Don't Know

Value Definitions for POC Rapid Test Results

Preliminary positive - One or more of the same point-of-care rapid tests were reactive and none are non-reactive and no supplemental testing was done at your agency

Positive - Two or more different (orthogonal) point-of-care rapid tests are reactive and none are non-reactive and no laboratory-based supplemental testing was done

Negative - One or more point-of-care rapid tests are non-reactive and none are reactive and no supplemental testing was done

Discordant - One or more point-of-care rapid tests are reactive and one or more are non-reactive and no laboratory-based supplemental testing was done

Invalid - A CLIA-waived POC rapid test result cannot be confirmed due to conditions related to errors in the testing technology, specimen collection, or transport

6 PrEP Awareness and Use/Priority Populations (complete for all persons)

Has the client ever heard of PrEP (Pre-Exposure Prophylaxis)?
 No Yes

Is the client currently taking daily PrEP medication?
 No Yes

Has the client used PrEP anytime in the last 12 months?
 No Yes

In the past five years, has the client had sex with a male?
 No Yes

In the past five years, has the client had sex with a female?
 No Yes

In the past five years, has the client had sex with a transgender person?
 No Yes

In the past five years, has the client injected drugs or substances?
 No Yes

7 Essential Support Services (complete for all persons, EXCEPT as indicated)

eHARS City/County Number

New or Previous diagnosis?

- New diagnosis, verified Previous diagnosis
 New diagnosis, not verified Unable to determine

▶ Has the client seen a medical care provider in the past six months for HIV treatment?

- No Declined to Answer
 Yes Don't know

Partner Services Case Number

Was the client interviewed for Partner Services?

- Yes, by a health department specialist
 Yes, by a non-health department person trained by the health department to conduct partner services
 No
 Don't Know

▶ Date of Interview

Value Definitions for POC Rapid Test Results

New diagnosis, verified - The HIV surveillance system was checked and no prior report was found and there is no indication of a previous diagnosis by either client self report (if the client was asked) or review of other data sources (if other data sources were checked).

New diagnosis, not verified - The HIV surveillance system was not checked and the classification of new diagnosis is based only on no indication of a previous positive HIV test by client self-report or review of other data sources.

Previous diagnosis - Previously reported to the HIV surveillance system or the client reports a previous positive HIV test or evidence of a previous positive test is found on review of other data sources.

Unable to determine - The HIV surveillance system not checked and no other data sources were reviewed and there is no information from the client about previous HIV test results.
