EvaluationWeb System Requirements

Revised July 2016

EvaluationWeb® is a secure, browser-based application that is provided as Software-as-a-Service (SaaS). This means that no special software is installed on your computer. Instead, the application is accessed over the Internet. All you need is a high-speed Internet connection, a modern web browser that supports Adobe's Flash Player (see below), and a minimum monitor resolution of 1024 x 768, although higher resolutions may be used.

Microsoft Windows is not required to use EvaluationWeb®. Many clients use Apple Macintosh and some use Linux computers. See below for more specific system requirements for your operating system.

All the software required for EvaluationWeb is either part of your computer or available free of charge. However, administrator privileges may be required to install or update your software. Please contact your IT support about updating your computer's software, if necessary.

For more information, you may call EvaluationWeb Supportive Services toll-free at:
(866) 517-6570, Option 1.

Flash Player

EvaluationWeb® requires Adobe Flash Player, which can be downloaded at http://get.adobe.com/flashplayer/. Use the most recent version of Flash Player to avoid security issues.

Internet Browsers

EvaluationWeb® is compatible with the following internet browsers. We recommend using the latest version of each browser to avoid security issues.

Internet Explorer (IE) – Version 9 or later
Firefox – Version 4 or later
Google Chrome – Any version
Safari – Version 5 or later
Opera – Version 11 or later

Operating Systems and Hardware

Microsoft Windows - Windows 7 or later (32-bit or 64-bit). 2.33GHz or faster x86-compatible processor, or Intel® Atom™ 1.6GHz or faster processor for netbooks. Windows 7 or higher (32-bit and 64-bit). Minimum 128MB of RAM (1GB of RAM recommended for netbooks) and 128MB of graphics memory.

Mac OS - Version 10.6 or later. Intel Core™ Duo 1.33GHz or faster processor with 256MB of RAM and 128MB of graphics memory.

Linux
2.33GHz or faster x86-compatible processor, or Intel Atom 1.6GHz or faster processor for netbooks. Red Hat® Enterprise Linux (RHEL) 5.6 or later (32-bit and 64-bit), openSUSE® 11.3 or later (32-bit and 64-bit), Ubuntu 10.04 or later (32-bit and 64-bit) with 512MB of RAM and 128MB of graphics memory.
